Banana Nut Muffins

Ingredients:
 1 2/3 Cups (220g) All-purpose Flour
 1/3 Cup (35g) Oat Flour
 1 tsp (6g) Baking Soda
 1 tsp (6 g) Salt
 1 Cup Toasted Walnuts or Pecans, chopped
 8T (1 stick) unsalted butter, melted and slightly cooled
 2 Large Eggs (room temperature)
 1 tsp Almond Extract
 1/2 tsp Banana Rum (optional)
 3 to 4 overripe bananas* (12 oz or 340g)
 1 Cup Granulated Sugar (7 1/2 oz or 210g)

Directions:
 Pre-heat oven to 350 degrees. Sift flour, oat flour, baking soda, and salt into a bowl. Fold in toasted nuts. Whisk butter, eggs, almond extract and banana rum together in a separate bowl. Place bananas and sugar in another bowl and mash together until smooth with a potato masher. Combine Banana/sugar mixture with butter/egg mixture and whisk together. Add wet ingredients to dry ingredients and mix only until combined. Do not overmix! Butter or spray a 12-hole muffin tin. Use a 2 1/2 oz ice-cream scoop to fill each muffin hole with batter; batter should come just to the top of the muffin hole. Bake in the middle of the oven for about 30 minutes, or until a toothpick inserted into the bottom of the muffin comes out ALMOST clean. Carefully turn each muffin on its side to cool using a spatula spreader or paring knife, to prevent sogginess. Yields 12 muffins. *Bananas should be VERY ripe (ie, as much black as possible on the skins), but not spoiled. You should be able to very easily mash the bananas with a potato masher. This is a good use for bananas that have gotten too ripe to eat whole. You can freeze them before they spoil--but after they have over-ripened--and thaw just before making your muffin batter.
