Dear Friends,

As the COVID-19 situation continues to progress, I want to assure all of you that the team at Active Re-Entry remains dedicated to providing services to our consumers to the best of our ability, while taking into consideration the health and safety of all.

We want you to know that although we are taking precautions, our offices are currently open. We are still providing essential services at this time and we will work to continue those efforts, even as we are faced with modifying our approach to our operations. Currently, due to the requirements to limit group gatherings, all events, classes and support groups have been suspended until further notice.

While circumstances continue to evolve, we may need to change how we are going to deliver our services. This may mean that we will be required to work from home or (telework). If that happens, we will be able to continue to serve you by phone, email and for some of us, even through the use of text messaging. You will be able to call the main phone number (435-637-4950) at the Price office and receive the support that you need.

Finally, I want you to know that we care about your welfare and hope that you and your family stay well.

Thank you,
Terri Yelonek, Director
Novel Coronavirus (COVID-19)

This illness can be mild. However, in some cases it is severe enough to require hospitalization. If you have traveled recently or are planning to travel to a country with a widespread outbreak of COVID-19, you should consult the CDC’s guidance for travelers, which is regularly updated as the situation changes.

**WHO is at risk?**
- Recent travelers from a country with ongoing spread of COVID-19
- Individuals with close contact to a person with COVID-19
- Current risk to the general public is low

**HOW is it spread?**
- Through the air after coughing or sneezing
- Close personal contact with an infected person
- Touching an object that has the virus on it, then touching your mouth, nose or eyes

**WHAT are the symptoms?**
- Fever
- Cough
- Shortness of breath

Symptoms may appear in as few as 2 days or as long as 14 days after exposure.

---

**Low Vision and Youth Coordinator**

I am Daren Kelly and I am the new Low Vision and Youth Coordinator for Active Re-Entry in Vernal, serving the consumers in the three counties of the Uinta Basin. I moved to Vernal 15 years ago from the United Kingdom. I have a background in both military and law enforcement. I am married to my wife Dori who is originally from Vernal, Utah and I have two sons and three grandchildren. I also have experience from a very young age living with family members who have disabilities, as my mother had multiple sclerosis and my youngest son has autism. I am excited to be working with Active Re-Entry and to use both my professional and personal experiences to better serve our consumers.

---

**IL Coordinator**

I am Stacy Johnston. I grew up in Moab, Utah. I have three kids who are very active in the outdoors. We enjoy everything from hikes, hunting, fishing, growing a garden as a family and barrel racing! I have always had a passion for customer service and taking care of people. I am excited to be working with Active Re-Entry and to help the people in Grand County.
FAQ Surrounding COVID-19, Southeast Utah Health Department Provides Answers

Frequently asked questions answered by Southeast Utah Health Department

Are we testing?
Yes, we are currently testing people from our communities. The people who are being tested fit the criteria given by the state and deemed “at risk.”

Is it correct that I cannot camp in Moab?
For non-residents that is correct. Residents are still allowed to go camping, but non-residents are not allowed to camp in Carbon, Emery or Grand counties at this time.

Is it true we cannot backcountry camp or do river runs?
There is no camping of any kind allowed unless you are a resident of these counties and in no groups over 10. There may be day trips, but again, no groups over 10 involved in the day trips.

Does the latest health order, 2020-02 pertain even if we had already made reservations through Airbnb a couple months ago?
Yes, this is for all reservations through April 17, 2020. For those who checked in March 13, 2020 or earlier can continue out their stay, but no new check-ins.

Will SEUHD be providing COVID-19 recommendations for dental, optometry and other medical offices?
No, we encourage these businesses to seek guidance and make those decisions internally. These businesses should look to the CDC for needed guidance.

Will SEUHD be contacting all businesses individually?
These businesses will be contacted if we have a current email address on file for them.

What about call centers?
Business as normal can continue but these businesses will need to follow the recommendations for businesses from our Public Health Order 2020-02.

What about reimbursements for businesses closed due to COVID-19?
Your business should look into relief efforts offered by the Small Business Association, which has pledged help for this area.

Should refunds and deposits that were made to hotels and rentals be returned, or what is recommended?
Each business should look into their internal policies, but we encourage businesses to be as flexible as possible.

What if businesses refuse to close or they continue to allow people to check-in to rentals?
These businesses will be subject to the punishments listed in the Public Health Order 2020-02 and may be subject to revocation of current and future permits.
